## EXPERIENCE

**GVC, Douglas Elliman (Gasdaska Verdiglione Conlon Team)** Aug 2025 – Present

*Graphic Design, 3D Modelling, Web Design*

- Full-time designer for a top real estate team working across NY, NJ and FL; designs and builds the marketing websites for its new developments.
- Le Rêve (Boca Raton, five townhomes at roughly $5M each): design, development and content, including the hero video and photo editing; leads go straight to the MLS and the site has brought in 23 leads.
- Casa Avenida (Delray Beach, eight residences): first client website, built in Framer with renderings support; three residences have sold. The Edge (Delray Beach, seven townhomes): design, development and content ahead of launch.
- Rebuilt and maintains the team's own website (Framer CMS), and built GVC Workspace, an internal tool that keeps listings, rentals, pitches and developments in one place and flags where Asana, Elliman and Drive disagree.

**GearBook, Boulder, CO** May 2025 – Present

*Co-founder & CMO*

- Co-founded an affiliate gear catalog where outdoor professionals pick the gear they use, get tracked affiliate links and a catalog page, and are paid their share of every sale monthly.
- Designed and built the site with co-founder Luke Wong (Next.js, Tailwind, Supabase, Cloudflare) and integrated affiliate partners including Impact and Partnerize.
- Handles marketing, content, partnerships and the legal side; 15 members have signed up so far.

**Ignite Adaptive Sports** May 2026 – Present

*Pro Bono Graphic Design & Event Marketing, On-Snow Volunteer*

- Unpaid design and event marketing for a nonprofit that opens up snowsports at Eldora Mountain Resort to athletes of all ages, disabilities and financial circumstances; volunteers on snow supporting athletes in their lessons.

**Trimble, Westminster, CO** May 2025 – Aug 2025

*Business Systems Management & Design*

- Rebranded the Business Systems team, which serves 400+ Trimble employees, with a logo, marketing assets and voice built in Illustrator to the Trimble brand playbook.
- Created intranet pages for the DevOps, Change Management and Business Systems teams and published branded content through a CMS.
- Wrote posts keeping stakeholders up to date on Trimble's software development cycle.

**Environmental Center, University of Colorado Boulder** May 2022 – Aug 2025

*Graphic Designer*

- Designed social posts promoting sustainability and an eco-conscious mindset across campus.
- Grew engagement by 10% and helped build the account's largest audience in its ten years, reaching 52,886 people in a single month.

**millerBlaker, Bronx, NY** May 2024 – Aug 2024

*Associate Project Manager & Intern on Engineering Team*

- Worked the full architectural millwork workflow: client relations, drafting, engineering, estimating and in-house fabrication.
- Contributed to projects for Google (team pods), Morgan Stanley and L'Oréal.

**Free Float Media LLC, Boulder, CO** May 2023 – Oct 2023

*Web Developer*

- Strengthened brand recognition and cohesion across several websites and social channels; reviewed and improved digital design and layout.

**Gravity Vault Indoor Rock Climbing, Upper Saddle River, NJ** May 2022 – Aug 2023
*Instructor*

**Woodward Camps, Woodward, PA** May 2021 – Aug 2022
*Recreational Staff*

## LEADERSHIP & PROJECTS

**CU Skate Forge, Boulder, CO** Aug 2023 – Jul 2025
*Founder & President*

- Founded a makers and skaters club that builds skate obstacles from sustainable materials to make skateboarding more accessible on campus; grew to 300+ members, 200+ attendees at campus events and 8+ sponsors in the first year, including Red Bull.
- Managed the budget, university approvals, insurance and sponsorships; pitched administrators, police and fire officials; led an 8-officer team; designed the graphics and built ramps and a full-sized half-pipe.

**Bloc CNC, Boulder, CO** Aug 2024 – May 2025
*Product Designer & Project Manager*

- Designed a compact CNC machine for DIYers and makers with gamified joystick controls and a sustainable enclosure.
- Led CAD modeling, software integration and UX design, and wrote the instructional workbook, the Bloc Innovation Guide.

**Selected Projects**

- **Pictorial Symbols Library (2026):** digitized 3,133 pictograms from a 1976 book (scan, crop, vector trace, name) into a searchable site with SVG download, built in hand-coded HTML, CSS and JavaScript.
- **Reseller Ledger (2026):** a private reselling tracker that follows each item from purchase to sale, with costs split to the penny across items.
- **DocuEase (2024):** an iOS app that uses the Experience Sampling Method and AI to turn quick check-ins into a project documentation record.
- **ClimbSmart Hangboard (2024):** an interactive climbing training board with capacitive sensing and a “Simon” game using illuminated holds.
- **Topomaps (2023):** turned topographic maps into 3D models and laser-cut templates with Rhino and Grasshopper.
